

K500 TRIPOD

PRODUCT DESCRIPTION

The KJI K500 Tripod is a lightweight 4-section aluminum tripod designed for hunters and shooters who want portability without sacrificing stability. At just 3.1 lbs. and rated for 80 lbs. of support, the K500 is built for rifles, optics, and accessories in the field or at the range.

With a height range from 53.9 inches down to 3 inches and three adjustable leg angles (23°, 55°, 83°), the K500 adapts to any shooting style. CNC-machined twist locks and hard-anodized aluminum components ensure rugged performance, while interchangeable rubber and spike feet provide grip on any terrain. Compatible with KJI Reaper systems and ball heads, the K500 is a dependable, go-anywhere tripod for precision shooting.

USE CASE

Hunters

- Solid shooting base on shifting or uneven terrain
- Independent leg angles adapt to brush, slopes, and soft ground
- Interchangeable feet grip shale, grass, mud, or rock
- Adjusts instantly to changing shot angles and field positions

Tactical & Professional Marksmen

- Built for overwatch, surveillance, and field operations
- CNC-machined twist-locks hold tight under heavy rifle setups
- Supports thermals, night vision, lasers, and rangefinding systems
- Pairs seamlessly with KJI Reaper platforms for mission-ready use

Competitive & Long-Range Shooters

- Eliminates tripod wobble on the firing line
- Fast height changes for standing, kneeling, or prone transitions
- Carbon fiber models reduce weight for field stages
- Aluminum variants offer maximum durability under match abuse

TECHNICAL SPECIFICATIONS	K500 TRIPOD
	KJ85006
NUMBER OF LEG SECTIONS	4
LOAD CAPACITY (LB/KG)	80 / 36.7
