

## K700 TRIPOD

### PRODUCT DESCRIPTION

The KJI K700 Tripod is a 4-section aluminum tripod engineered for shooters who need dependable stability in a lightweight, compact design. Weighing just 3.9 lbs. yet rated for 150 lbs. of support, the K700 balances portability and strength for use in the field, on the range, or in tactical environments.

With a height range from 56.3 inches down to 3.5 inches and three adjustable leg angles, the K700 quickly adapts to standing, kneeling, or prone shooting. CNC-machined twist locks and hard-anodized aluminum components deliver rugged reliability, while rubber and spike feet ensure grip on any surface. Compatible with KJI Reaper systems and ball heads, the K700 is a versatile foundation for precision shooting platforms.

### USE CASE

#### Hunters

- Rock-solid shooting support on uneven or unstable ground
- Independent leg angles adapt to brush, hillsides, shale, and wet grass
- Interchangeable feet improve traction across varied terrain
- Adjusts instantly to shifting shot angles and field positions

#### Tactical & Professional Marksmen

- Mission-ready stability for overwatch, surveillance, and field shooting
- CNC-machined twist-locks hold firm under heavy rifle setups
- Supports rifles with thermals, NV, lasers, and rangefinders
- Fully compatible with KJI Reaper mounts and accessories

#### Competitive & Long-Range Shooters

- Eliminates tripod wobble during precision stages
- Fast height changes for standing, kneeling, or prone transitions
- Carbon fiber variants reduce weight for mobile stage movement
- Aluminum options maximize durability for harsh match use

### FEATURES

- **Supports up to 150 lbs.**  
Handles full rifle systems, optics, and accessories with zero compromise in stability.
- **Lightweight (3.9 lbs.) & Compact (20.1" Folded)**  
Easy to pack, transport, and deploy for mobile shooting setups.
- **Four-Section Aluminum Legs**  
Offer a strong, affordable alternative to carbon fiber while maintaining excellent rigidity.
- **CNC-Machined Aluminum Twist Locks**  
Ensure smooth operation, quick deployment, and secure hold under load.
- **Three Adjustable Leg Angles (23°, 55°, 83°)**  
Adapt quickly to uneven terrain or any shooting position.
