

K950 TRIPOD

PRODUCT DESCRIPTION

The KJI K950 Tripod is a heavy-duty carbon-fiber platform built for hunters, precision shooters, and tactical professionals who require absolute stability under load. Weighing only 6.2 lbs. yet rated to support up to 170 lbs., the K950 handles the largest rifles, optics, and accessories with confidence. CNC-machined aluminum twist locks and a hard-anodized finish ensure long-lasting durability in the field.

With three leg angle settings (23°, 55°, and 83°) and a height range from 71.5 inches down to 5.3 inches, the K950 adapts quickly from standing shots to prone positions. Its 4-section legs pack down to a compact 25.6 inches, while interchangeable rubber or spike feet provide traction on any terrain. Compatible with KJI Reaper systems and ball heads, the K950 delivers a professional-grade foundation for precision shooting.

USE CASE

Hunters

- Supports heavy rifles with thermal, night vision, and clip-on optics without flex
- Independent leg angles adapt to uneven ground, brush, hillsides, and open pasture
- Interchangeable rubber and spike feet maintain traction on soil, rock, and hardpack
- Stable standing, seated, or low-prone support when natural rests are unavailable

Tactical & Professional Marksmen

- Built for overwatch, surveillance, and extended field observation
- 170 lbs. load rating handles large-frame rifles and full accessory stacks
- CNC-machined aluminum twist locks hold under sustained load and environmental stress
- Integrates directly with KJI Reaper systems and ball heads for mission-driven setups

Competitive & Long-Range Shooters

- Eliminates tripod flex and wobble with heavy precision rifles
- Wide height range supports rapid transitions between standing, kneeling, and prone
- Carbon-fiber legs reduce weight while maintaining stiffness under recoil
- Durable aluminum components withstand constant transport and match abuse

TECHNICAL SPECIFICATIONS	K950 TRIPOD
	KJ85010
NUMBER OF LEG SECTIONS	4
LOAD CAPACITY (LB/KG)	170 / 76.8
MAX HEIGHT @ FULL EXTENSION (IN/MM)	71.5 / 1816
COLLAPSED LENGTH (IN/MM)	25.6 / 651
TOP DIAMETER (IN/MM)	2.9 / 74
LEG DIAMETERS (MM)	39 / 35 / 31 / 27
TOP MOUNTING INTERFACE	3/8"-16
LEG LOCKING TYPE	Twist
BODY / LEG MATERIAL	Hard Coat Anodized / Carbon Fiber
WEIGHT (LB/KG)	6.2 / 2.8

FEATURES

- **170 lb. Load Capacity**
Supports heavy precision rifles, large optics, clip-ons, and accessories without flex or instability.
- **Carbon-Fiber Legs**
Four-section carbon-fiber construction reduces weight while maintaining stiffness under load.
- **CNC-Machined Aluminum Twist Locks**
Provide secure leg extension and resist wear, dirt, and corrosion during hard field use.
- **Three Leg Angle Positions (23°, 55°, 83°)**
Allows rapid transition between standing, seated, kneeling, and prone shooting positions.
- **Wide Height Adjustment Range**
Extends to 71.5 inches for standing shots and collapses to 5.3 inches for low-profile prone use.
