COM-TAC

military headsets

The Com-Tac incorporates our innovative surround technology that has made Peltor the worldwide leader in communication headsets. Not only will the Com-Tac protect against hearing loss with a passive attenuation of 20dB, the outer cup microphones combined with the electronics inside the headset will instantaneously suppress dangerous gun shots and also amplify in stereo ambient surrounding voices. With our large selection of waterproof radio push-to-talk (PTT) adaptors, this headset can be used in a variety of missions with any existing or new radio system.

Slim-line stainless steel headband with soft leather wrap

Patented combination liquid/gel filled earseals

Finger PTT available

Microphones provide omni directional 360° ambient listening

Touch pad volume control
