## R1

The R1 Lithium-Ion rechargeable battery provides excellent lighting performance for the NAO® RL headlamp, even at low temperatures. It recharges with a type C micro USB port and has a five-level gauge for precise monitoring of the battery charge level. It is equipped with red lighting for visibility from behind and can be used as a spare battery to charge other electronic devices.

Red lighting, continuous or strobe, can be used to signal your location.

A separate button allows the red lighting to be turned on or off directly. It also displays the five-level gauge for precise monitoring of the battery charge level.

Simple charging with a type C micro USB port. It can be used as a spare battery to charge electronic devices.

**Short Description** Rechargeable battery for NAO® RL headlamp

---

**Selling Points**

- Lithium-Ion 3200 mAh rechargeable battery for NAO® RL headlamp
- Easy charging with a type C micro USB port
- Five-level gauge for precise monitoring of the battery charge level
- Red lighting, continuous or strobe, to remain visible from behind at night and a separate button to quickly turn it on or off
- Can be used as a spare battery to charge other electronic devices
- Performs well at low temperatures

---

**Specification**

- Weight: 80g
- Technology: Lithium-Ion
- Capacity: 3200 mAh
- Number of charging cycles: 300
- Charging Time: 3.5 h
- Watertightness: IPX7 (waterproof in up to 1 meter of water for 30 minutes)
- Certification(s): CE
